

Due to system changes, there are several Webl reports that have stopped or will stop working. As a result, these reports will be archived and/or replaced with new versions.

This will help to declutter many of the report folders and reduce confusion and maintenance overhead. This effort will also have the additional benefit of making reports easier to find and less frustrating to use and will combine similar reports into single, multi-tabbed reports.

The following folders in Webl are part of this phase of the Webl clean-up effort:

WISDOM/Employment Programs and all subfolders
